PRODUCT DATA SHEET

**TITAN™ METAL SERIES**  
Metal Secondary Drain Pans

**Description**

Titan Metal Series Drain Pans are used to collect condensate from evaporator coils in case of overflow. Each drain pan features quality, one-piece construction of 24-gauge galvanized steel that will not rust. The smooth, rolled edges on all sides ensure safety. Two drain plug outlets on the short and long sides offer flexibility during installation. The fittings are included and are securely attached to each pan. 8 sizes are available to fit the needs of any contractor. In addition, the pans are nestable for easy storage at the distributor.

1 year product warranty.

**Applications**

- A/C Secondary Condensate Drain Pan
- Collect condensate from evaporator coils in case of overflow

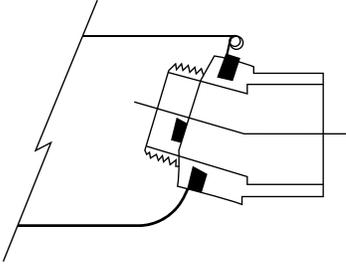

**Characteristics | Features**

- Premium craftsmanship
- 24-gauge galvanized steel
- 1-piece construction

## Installation Instructions

### Drain Fitting Detail

1. Install black rubber washer on to threaded end of the drain pan coupling.
2. Insert the drain pan fitting with rubber washer from the outside of the drain pan.
3. Install the locking nut onto the threads of the drain pan fitting on the inside of the drain pan.

### Hole Plug Installation Detail

1. Install rubber hole plug from the outside of the drain pan.
2. Make sure that the back flange of the rubber hole plus is completely insterted into the hole.
3. Ensure the back flange of the rubber hole plug is completely flush with inside of the drain pan surface.
